

# RETRACTABLE TYPE FALL ARRESTERS WEB

The strap reel is a retractable type fall arrester with a strap reserve on a drum protected by an aluminium / synthetic material casing. The strap is held taught by a spring and it extends or retracts as the retained person moves around. In case of fall, it locks automatically. Energy absorption is handled by the mechanism itself. Part of the fall prevention system components. Warning: the anchor point must be located at least 80 cm above the working threshold.

- ▶ Strap reel with double action aluminium hook
- ▶ A 360° swivel mount on the upper casing and on the connector so that the user gains wide freedom of movement with complete safety
- ▶ This fall prevention mechanism locks in the event of a fall and reduces the fall height
- ▶ An aluminium case for the 2.00 m length and a synthetic case for the 5.50 m length ultra lightweight one with built-in energy absorber
- ▶ Usable in all situations: vertical or horizontal movements
- ▶ Strap resistance allows working on sharp edges
- ▶ A robust mechanism requiring little maintenance
- ▶ Available in 2.00 m length (double action swivel carabiner with a 66 mm opening diameter) and 5.50 m length (double action swivel carabiner with a 25 mm opening diameter)

## Product characteristics

<b>Material</b>	Aluminium [2M] / Synthetic material [5,5M]
